

# Geol 210 – Historical Geology

## Final Exam Study Guide

The final exam in Geol 210 will be held in Sims 202 on Tuesday, May 5<sup>th</sup>. Your exam time depends on your section number:

Section 001 – 8:00 AM, Tuesday, May 5<sup>th</sup>

Section 002 – 11:30 AM, Tuesday, May 5<sup>th</sup>

As per Winthrop University policy:

*Examinations may not exceed 2 ½ hours in length. Legitimate conflicts are defined as follows: more than one scheduled exam per period; more than two scheduled exams per day; and more than three scheduled exams in any four consecutive periods. A student with a legitimate conflict should work directly with his/her instructor to resolve the conflict. It is the student's responsibility to initiate the resolution of any conflicts. **Personal conflicts such as travel plans and work schedules do not warrant a change in examination times.***

If you have a legitimate conflict, please contact me so that we can arrange for an alternative time for you to take the exam.

The final exam will be composed of multiple choice questions. We will be using Scantron technology, so please bring a #2 pencil.

To make the exam comprehensive, we will use all of the multiple choice questions from the first three exams (files in the "Final Exam" folder on BlackBoard):

Exam One	20 questions
Exam Two	20 questions
Exam Three	30 questions
Total	70 questions

In addition we will have 30 multiple choice questions for the material we covered after exam three. The multiple choice questions will be drawn from the multiple choice questions in the "Review Questions" at the end of the chapters containing material we have covered since the last exam (chapters 12, 13, 14, 15, 16, 18).

As we agreed in class, the final exam will count both in the "final exam" slot on the final grade (worth 20% of the final grade). In addition, the grade on the final exam will replace the lowest exam grade (worth 15% of the final grade), as long as the final exam grade is higher.
