Student Evaluation of Course and Instructor
Department of Chemistry, Physics and Geology

Year/Term: Spring 10

Course: Chem 106

Instructor: Dr. Hurlbert

Please answer the following questions directly on this page.

1. What are the greatest strengths of the instructor?

- very well organized
- always available
- knowledgeable

2. What suggestions do you have to improve the instruction?

3. What did you like most about this course?

The teacher made
the material interesting and
relevant

4. What did you like least about this course?

Very fast paced!

5. Please provide additional comments or answer supplementary questions given.

This instructor is honestly
the best I have ever had out
of all 3 colleges I've been to

Student Evaluation of Course and Instructor
Department of Chemistry, Physics and Geology

Year/Term: Spring 2010

Course: Chem 106

Instructor: Dr. Herbert

Please answer the following questions directly on this page.

1. What are the greatest strengths of the instructor?

Very enthusiastic, helpful & knowledgeable

2. What suggestions do you have to improve the instruction?

Be a little clearer in lecture.

3. What did you like most about this course?

The material taught was
done so in an interesting way

4. What did you like least about this course?

I don't like chemistry

5. Please provide additional comments or answer supplementary questions given.

I enjoyed taking Dr. Herbert

Student Evaluation of Course and Instructor
Department of Chemistry, Physics and Geology

Year/Term: Spring 2010

Course: Chem 106-108 Lecture

Instructor: Dr. Hurlbert

Please answer the following questions directly on this page.

1. What are the greatest strengths of the instructor?

Very enthusiastic. keeps you engaged. Very willing to help

2. What suggestions do you have to improve the instruction?

none

3. What did you like most about this course?

everything was interesting

4. What did you like least about this course?

~~work~~ workload

5. Please provide additional comments or answer supplementary questions given.

This has been my favorite class yet.

Student Evaluation of Course and Instructor
Department of Chemistry, Physics and Geology

Year/Term: Spring 2010

Course: Chem 106

Instructor: Dr. Hurlbert

Please answer the following questions directly on this page.

1. What are the greatest strengths of the instructor?

He's enthusiastic & very willing to help

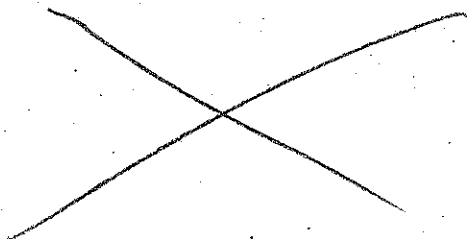

2. What suggestions do you have to improve the instruction?

None

3. What did you like most about this course?

Everything

4. What did you like least about this course?

5. Please provide additional comments or answer supplementary questions given.

Best professor ever

Student Evaluation of Course and Instructor
Department of Chemistry, Physics and Geology

Year/Term: 2010/spring

Course: 106 Chem

Instructor: Hurlbert

Please answer the following questions directly on this page.

1. What are the greatest strengths of the instructor?
ALLOWS the students to ask questions and be included in the discussions. ALWAYS available for help outside of class!
2. What suggestions do you have to improve the instruction?
make assigned reading.
3. What did you like most about this course?
FUN! enjoyable.
4. What did you like least about this course?
long study nights
5. Please provide additional comments or answer supplementary questions given.
very knowledgeable

Student Evaluation of Course and Instructor
Department of Chemistry, Physics and Geology

Year/Term: 2010 Spring

Course: Chem 106

Instructor: Dr. Hurlbert

Please answer the following questions directly on this page.

1. What are the greatest strengths of the instructor?

The way he relates the information
to the real world.

2. What suggestions do you have to improve the instruction?

nothing

3. What did you like most about this course?

The challenges it presented

4. What did you like least about this course?

N/A

5. Please provide additional comments or answer supplementary questions given.

Dr. Hurlbert is AWESOME!!

Student Evaluation of Course and Instructor
Department of Chemistry, Physics and Geology

Year/Term: _____

Course: _____

Instructor: _____

Please answer the following questions directly on this page.

1. What are the greatest strengths of the instructor?

~~He is good~~ He is well able to communicate with the students and teach them in terms they understand.

2. What suggestions do you have to improve the instruction?

3. What did you like most about this course?

His reasoning as to why threonine was not catalytically relevant when serine was.

4. What did you like least about this course?

It became harder to understand at the end.

5. Please provide additional comments or answer supplementary questions given.

Student Evaluation of Course and Instructor
Department of Chemistry, Physics and Geology

Year/Term: Spring 2010

Course: Chem 106

Instructor: Dr. Jason Hurlbert

Please answer the following questions directly on this page.

1. What are the greatest strengths of the instructor?

Knowledge of subject and willingness to help, fair

2. What suggestions do you have to improve the instruction?

Do not go so fast during lecture, do not add so much extra info to notes/lecture. It makes it more confusing

3. What did you like most about this course?

the valuable info learned, instructor

4. What did you like least about this course?

it is very challenging and, at times, very confusing

5. Please provide additional comments or answer supplementary questions given.

Student Evaluation of Course and Instructor
Department of Chemistry, Physics and Geology

Year/Term: 10S

Course: CHEM 106

Instructor: Hurlbert

Please answer the following questions directly on this page.

1. What are the greatest strengths of the instructor?

His enthusiasm, his helpfulness, his humor. He's a wonderful professor. He genuinely cares about his students learning and doing well. He's available to answer questions at any time, he'll explain things until you understand it, and his sense of humor really helps making learning the material easier and more fun.

2. What suggestions do you have to improve the instruction?

Nothing! He's great!

3. What did you like most about this course?

Learning about carbohydrates and lipids - I was able to connect that to my major.

4. What did you like least about this course?

5. Please provide additional comments or answer supplementary questions given.

Dr. Hurlbert rocks.

Student Evaluation of Course and Instructor
Department of Chemistry, Physics and Geology

Year/Term: Spring '10

Course: CHEM-108-002

Instructor: Dr. Jason C. Hurlbert

Please answer the following questions directly on this page.

1. What are the greatest strengths of the instructor?

- Makes feel like analogies
- Lots of practical experience

2. What suggestions do you have to improve the instruction?

Be sure of student understanding before proceeding

3. What did you like most about this course?

Everything. The fact that it was a preview of Biochemistry.

4. What did you like least about this course?

Nothing

5. Please provide additional comments or answer supplementary questions given.

Awesome teacher!!!

Student Evaluation of Course and Instructor
Department of Chemistry, Physics and Geology

Year/Term: Spring '10

Course: CHM 106

Instructor: Hurlbert

Please answer the following questions directly on this page.

1. What are the greatest strengths of the instructor?

Very thorough with material. willing to help all the time.

2. What suggestions do you have to improve the instruction?

3. What did you like most about this course?

4. What did you like least about this course?

I wished I got credit for biochem instead of gen chem.
After all, this was 95% biochemistry.

5. Please provide additional comments or answer supplementary questions given.

Rock on Dr. H! Wish there were more professors like
him. His support kept me alive and work harder in
the hard sciences. Couldnt have done it without him.

Student Evaluation of Course and Instructor
Department of Chemistry, Physics and Geology

Year/Term: 310

Course: Chem 106-002

Instructor: Dr. Hurlbert

Please answer the following questions directly on this page.

1. What are the greatest strengths of the instructor?

- His ability to teach the toughest information, in a manner that everyone understands.
- His humor and attitude which encourages one to engage in the topics.

2. What suggestions do you have to improve the instruction?

He is awesome, can't be better than the best.

3. What did you like most about this course?

The topics he taught, the method in which he taught, and his positive attitude which made all the difference.

4. What did you like least about this course?

Nothing, loved every bit.

5. Please provide additional comments or answer supplementary questions given.

AWESOME !!!
0

Student Evaluation of Course and Instructor
Department of Chemistry, Physics and Geology

Year/Term: Spring 2016

Course: CHEM 106

Instructor: Hurlbert

Please answer the following questions directly on this page.

1. What are the greatest strengths of the instructor?

He is very good at teaching the lessons and coming up with ways for us to understand the material. He is available outside of class and responds quickly to emails. He is able to keep the class interesting + make me think.

2. What suggestions do you have to improve the instruction?

Maybe go into more detail about the subjects we go over and not cover so much material (it felt like we moved very fast).

3. What did you like most about this course?

I really learned to use logic and understand chemistry, not just memorize stuff.

4. What did you like least about this course?

Nothing → Hurlbert is AWESOME.

5. Please provide additional comments or answer supplementary questions given.

Student Evaluation of Course and Instructor
Department of Chemistry, Physics and Geology

Year/Term: Spring 10

Course: 106-

Instructor: Humbert

Please answer the following questions directly on this page.

1. What are the greatest strengths of the instructor?

Knowledge of subject & funny

2. What suggestions do you have to improve the instruction?

Nothing

3. What did you like most about this course?

Bonus + the funny instructor

4. What did you like least about this course?

Titration based questions

5. Please provide additional comments or answer supplementary questions given.

Great teacher

Student Evaluation of Course and Instructor
Department of Chemistry, Physics and Geology

Year/Term: SPR '2010

Course: Chem 106

Instructor: Dr. Huelbert

Please answer the following questions directly on this page.

1. What are the greatest strengths of the instructor?

- Everything. Great instructor. Entertaining, knowledgeable, and willing to bend over backwards to help.

2. What suggestions do you have to improve the instruction?

Get an Xbox.

3. What did you like most about this course?

Everything

4. What did you like least about this course?

X

5. Please provide additional comments or answer supplementary questions given.

Student Evaluation of Course and Instructor
Department of Chemistry, Physics and Geology

Year/Term: Spring 2010

Course: Chem 102e

Instructor: Hubert J

Please answer the following questions directly on this page.

1. What are the greatest strengths of the instructor?

This instructor was very helpful and concerned about the students learning the material

2. What suggestions do you have to improve the instruction?

No suggestions for improvement

3. What did you like most about this course?

The availability of the instructor to help out on difficult material

4. What did you like least about this course?

The time outside of the class needed in order to be productive.

5. Please provide additional comments or answer supplementary questions given.

Student Evaluation of Course and Instructor
Department of Chemistry, Physics and Geology

Year/Term: SPRING 10

Course: CHEM 102

Instructor: HURIBERT

Please answer the following questions directly on this page.

1. What are the greatest strengths of the instructor?

He knows what he is talking about, willing to help & makes class fun & interesting

2. What suggestions do you have to improve the instruction?

MORE SPECIFIC - SLOWER Paced

3. What did you like most about this course?

learned so much

4. What did you like least about this course?

How fast paced it was

5. Please provide additional comments or answer supplementary questions given.

Great Teacher

Student Evaluation of Course and Instructor
Department of Chemistry, Physics and Geology

Year/Term: _____

Course: _____

Instructor: _____

Please answer the following questions directly on this page.

1. What are the greatest strengths of the instructor?

KNOWS how to catch ur interest. Funny
but very knowledgeable

2. What suggestions do you have to improve the instruction?

NONE

3. What did you like most about this course?

I can apply it to life

4. What did you like least about this course?

Nothing, a lot of work though!

5. Please provide additional comments or answer supplementary questions given.

HURBERT'S
AWESOME

Student Evaluation of Course and Instructor
Department of Chemistry, Physics and Geology

Year/Term: Spring 2010

Course: Chem 106

Instructor: Dr. Hurlbert

Please answer the following questions directly on this page.

1. What are the greatest strengths of the instructor?

Dr. Hurlbert knew what he was talking about and cared for his students and their well-being. I have never had a professor that has ever cared as much as he has.

2. What suggestions do you have to improve the instruction?

Nothing really... his sarcasm is a great added feature to the class that makes it more enjoyable.

3. What did you like most about this course?

I enjoyed the biochemical aspect, which was basically all of it.

4. What did you like least about this course?

5. Please provide additional comments or answer supplementary questions given.

Student Evaluation of Course and Instructor
Department of Chemistry, Physics and Geology

Year/Term: 105

Course: CHEM 106

Instructor: Herbert

Please answer the following questions directly on this page.

1. What are the greatest strengths of the instructor?
*Helps explain the material until everyone understands.
Tries to make the subject easy to comprehend!*
2. What suggestions do you have to improve the instruction?
3. What did you like most about this course?
4. What did you like least about this course?
5. Please provide additional comments or answer supplementary questions given.

Student Evaluation of Course and Instructor
Department of Chemistry, Physics and Geology

Year/Term: 2010/spring

Course: Chem 106

Instructor: Dr. Huribart

Please answer the following questions directly on this page.

1. What are the greatest strengths of the instructor? His willingness to go the extra length to ensure the material is learned.
2. What suggestions do you have to improve the instruction? None
3. What did you like most about this course? The instructor
4. What did you like least about this course? Nothing
5. Please provide additional comments or answer supplementary questions given.
